Correct Marks : 2

Question Label : Multiple Choice Question

Why is calculating Shapley values computationally expensive for models with a large number of features?

Options :

6406533516480. ✖ It requires retraining the model for every subset of features.

6406533516481. ✖ It depends on the dataset size, which scales quadratically.

6406533516482. ✔ It evaluates the contribution of all possible feature subsets, which grows exponentially.

6406533516483. ✖ It computes gradients for every input sample.

Correct Marks : 0
Question Label : Multiple Choice Question

General Instructions:

(i) This paper comprises two types of questions: Short Answer Type and Multiple Choice Questions. The total marks for the paper are 35. Answer all questions to the best of your ability.

(ii) Short Answer Type Questions:

- These questions are numbered 3 to 5. Each question includes a specified word limit and mark allocation.
- Responses should be relevant. Allocate approximately 80% of your time to thinking and 20% to writing.
- Avoid copying from neighbouring candidates' screens, as such behaviour is easily detectable and subject to penalties.
- Irrelevant answers, off-topic responses, or duplication of information from the question paper will not receive marks.
- Ensure that your answers are well-supported with relevant content from the course and suitable examples where applicable.

(iii) Multiple Choice Questions:

- These questions are numbered 6 to 25 and carry one mark each.
- Carefully read each question and select the most accurate option. There is only one correct answer per question.

(iv) All characters, relationships, and events in the case or questions are fictitious. Any resemblance to real-life persons or events is purely coincidental.

Please indicate that you have read and understood the instructions

For each of these conflict situations given below from questions 18 to 21, choose the closest and correct option; there is only one right answer for each statement.

Conflict Management Style: Conflict is inevitable in workplaces and, if resolved healthily, can foster growth. The Thomas–Kilmann Conflict Mode Instrument (TKI) helps assess and implement suitable responses to conflict, enhancing managerial effectiveness and business harmony.

Identify the most appropriate conflict management style to use from the options given below:
a. avoiding
b. accommodating
c. forcing
d. negotiating
e. collaborating

Sub questions

Question Number : 256 Question Id : 6406531040984 Question Type : MCQ

Correct Marks : 1

Question Label : Multiple Choice Question

[Conflict Management Style] Subhojit, a young professional, encounters a conflict at his workplace. The issue, while causing minor discomfort, is relatively trivial and does not significantly impact the overall work environment. Moreover, Subhojit's stake in the matter is not very high, and resolving it is not critical to his immediate goals. However, the person involved in the conflict is someone Subhojit values professionally and maintaining a positive relationship with them is crucial for his long-term career growth. Subhojit realizes that a direct confrontation might risk damaging this

important relationship.

Question Label : Multiple Choice Question

[Conflict Management Style] Mannat is a team leader overseeing a critical project that requires an optimal solution to succeed. Recently, a conflict has arisen between two team members over how to approach a key aspect of the project. While the disagreement is significant, the team members are committed to the collective's success and willing to prioritize the shared goal over their personal preferences. Mannat recognizes the importance of resolving the conflict in a way that maintains strong working relationships within the team. Fortunately, there is sufficient time to address the issue thoughtfully without rushing to a decision.
