Question Label : Multiple Choice Question

General Guidelines:

(i) This paper comprises two types of questions: Short Answer Type and Multiple Choice Questions. The total marks for the paper are 30. Answer all questions to the best of your ability.

(ii) Short Answer Type Questions:

● Each short answer type question includes a specified word limit and mark allocation.
● Responses should be relevant. Allocate approximately 80% of your time to thinking and 20% to writing.
● Avoid copying from neighbouring candidates' screens, as such behaviour is easily detectable and subject to penalties.
● Irrelevant answers, off-topic responses, or duplication of information from the question paper will not receive marks.
● Ensure that your answers are well-supported with relevant content from the course and suitable examples where applicable. Answers based purely on guesswork or personal opinions without support from theories or frameworks will not earn any marks.

(iii) Multiple Choice Questions:

● These questions carry one mark each.
● Carefully read each question and select the most accurate option. There is only one correct answer per question.

(iv) All characters, relationships, and events in the case or questions are fictitious. Any resemblance to real-life persons or events is purely coincidental.

(v) Any content in this paper that is owned by authors, publishers, or copyright holders will be appropriately redacted to avoid copyright infringement.

Please indicate that you have read and understood the guidelines by marking the appropriate box below:

According to Maslow's hierarchy of needs, which of the following statements is true?

Options :

6406534738150. ✖

Once higher-level needs are fulfilled, lower-level needs stop influencing behavior.

6406534738151. ✖

Needs operate in a strict sequence, and individuals cannot pursue higher needs without fully satisfying lower ones.

6406534738152. ✔

In practice, multiple needs may influence behavior simultaneously, though lower needs generally take priority.

6406534738153. ✖

Only individuals in high-level roles, like leaders or entrepreneurs, experience all levels of needs.
