Question Label : Multiple Choice Question

In the following question, two statements numbered I and II are given. There may be a cause-and-effect relationship between the two statements. These two statements may be the effect of the same cause or independent causes. These statements may be independent causes without having any relationship. Read both the statements in each question and mark your answer as:

Statements:

I. More than two billion pounds of chemicals are spewed into the air every day by industries and vehicles in some countries.

II. The international pollution control organisation is expected to penalise the countries which cross the maximum emission limits.

Options :

6406531488813. ✓ Statement I could be a logical cause for the statement II to take effect.

6406531488814. ✗ Statement II could be a logical cause for the statement I to take effect.

6406531488815. ✗ Both statements I and II can only be independent causes.

6406531488816. ✗ Both statements I and II can only be the effects of independent causes.

6406531488817. ✗ Both statements I and II can only be the effects of some common causes.
