Question Label : Multiple Choice Question

General Instructions:

(i) This paper comprises two types of questions: Long Answer Type and Multiple Choice Questions. The total marks for the paper are 30. Answer all questions to the best of your ability.

(ii) Long Answer Type Questions:

- These questions are numbered **3 and 4** Each question includes a specified word limit and mark allocation.
- Responses should be relevant. Allocate approximately 80% of your time to thinking and 20% to writing.
- Avoid copying from neighbouring candidates' screens, as such behaviour is easily detectable and subject to penalties.
- Irrelevant answers, off-topic responses, or duplication of information from the question paper will not receive marks.
- Ensure that your answers are well-supported with relevant content from the course and suitable examples where applicable. Answers based purely on guesswork or personal opinions without support from theories or frameworks will not earn any marks.

(iii) Multiple Choice Questions:

- These questions are numbered **5 to 23** and carry one mark each.
- Carefully read each question and select the most accurate option. There is only one correct answer per question.

(iv) All characters, relationships, and events in the case or questions are fictitious. Any resemblance to real-life persons or events is purely coincidental.

Please indicate that you have read and understood the instructions :

Review the case provided and consider the five possible solutions listed. Select the solution(s) you believe is/are the most effective approach for the given scenario. In your response, clearly explain why you think this solution is best suited, using relevant theories, frameworks, or best practices in the workplace dynamics. You must include concepts related to effective teamwork/ communication/ leadership/ emotional intelligence/ conflict management to support your

reasoning.

[Case] When he graduated with his honours undergraduate degree in business, Dhruv was hired as a marketing associate for a large consumer products firm. Within 16 months, he was transferred to another group and promoted to the position of supervisor. About a third of Dhruv's direct reports were 10 or more years older than he was, and they seemed less than pleased when he was introduced as their new supervisor. While he was able to build respectful and supportive relationships with many of the younger employees, the older group remained aloof. Four months into his new job, Dhruv was informed that his group would be upgraded to a new project management and database system and was asked to send all his employees to training. Dhruv took the training himself first, and then asked his employees to sign up for the time slots that would be the most convenient for them. Members of the older group of employees were the last to sign up, saying they were in the middle of a busy season for their clients, and couldn't take the time. Then, the trainer complained to Dhruv that his employees had not paid much attention during the training, instead responding to emails on their smartphones or stepping out to take client calls. After the training, the older group of workers complained that the new system was ineffective and inferior to the old one. One person, Narendran, spoke the loudest and made the most complaints, explaining that he was speaking for the entire group of "seasoned veterans who really know what makes this business run."

What should Dhruv do?

- A. Speak to Narendran privately about his obstructiveness, and warn him that if he doesn't cooperate by learning and using the new system, he will receive a written warning.
- B. Do nothing about Narendran's complaints; over time, he and the other veterans will have to learn the system if they want to get good appraisals, raises and bonuses.
- C. Call a meeting of the entire group and ask for feedback on the new system. Identify those individuals who are most technologically savvy and develop a plan together for getting everyone up to speed on all of the features and functions of the new system.
- D. Speak to Narendran in front of the group of seasoned veterans. Explain that he appreciates Narendran's views and would like the entire group to get together regularly to exchange information and knowledge across all of the employees in the work group.
- E. Get advice from his own supervisor regarding how to proceed with managing the different personalities and perspectives among his employees and how to best implement the changeover.

[Teams] Ashwin has recently been assigned to a new project team at his workplace. His manager believes in fostering collaboration by forming diverse teams, so instead of working with his usual colleagues, Ashwin is now part of a four-member team with individuals who have completely different work styles, personalities, and backgrounds. While Ashwin is structured and detail-oriented, one team member prefers a flexible approach, another thrives on spontaneity, and the third is highly analytical but reserved. The team has been given a challenging task with a tight deadline, and their first meeting is scheduled for tomorrow.

[Teams] According to Tuckman’s model of team development, which stage is Ashwin’s team

currently in?

Options :

6406533939646. ✖ Storming

6406533939647. ✔ Forming

6406533939648. ✖ Norming

6406533939649. ✖ Performing

Correct Marks : 1

Question Label : Multiple Choice Question

[10Cs of Teamwork] In a company, the development team was working on a new chatbot feature. The project had multiple components—data processing, machine learning model development, and user interface design. The following are the different approaches

1. Yaseen, the project manager, assigned specific tasks to each team member with clear deadlines. The team converged on key ideas during initial planning meetings, divided responsibilities, and focused on executing their parts independently. Updates were shared in structured weekly meetings to ensure smooth execution.

2. Sanyam, another manager, worked with the user experience designer and software engineers in an ongoing iterative process. The team frequently brainstormed ideas, refined their models together, and solved challenges in real time to enhance chatbot personalization.

[10Cs of Teamwork] What best describes the difference between the two approaches?

Options :

6406533939650. ✖ The first approach is collaboration, while the second is coordination.

6406533939651. ✔ The first approach is coordination, while the second is collaboration.

6406533939652. ✖ Both approaches demonstrate pure collaboration.

6406533939653. ✖ Both approaches represent only coordination.

[10Cs of Teamwork] At A2B Ltd., the leadership team recognized the need to stay competitive in a fast-evolving industry. Two different initiatives were introduced:

1. The company planned to implement a new AI-driven CRM system. To ensure a smooth transition, managers focused on preparing, equipping, and supporting employees through training sessions, feedback loops, and hands-on workshops. The goal was to help employees adopt and integrate the new system into their daily workflow successfully.

2. Meanwhile, Suriya, a senior operations manager, led an initiative where employees regularly reviewed and refined their work processes. The team conducted monthly retrospective meetings to identify inefficiencies and implement small, incremental changes to enhance productivity over time.

[10Cs of Teamwork] What best describes the difference between the two approaches?

Options :

6406533939654. ✖ The first approach is continuous improvement, while the second is change management.

6406533939655. ✔ The first approach is change management, while the second is continuous improvement.

6406533939656. ✖ Both approaches represent only continuous improvement.

6406533939657. ✖ Both approaches demonstrate pure change management.

Correct Marks : 1

Question Label : Multiple Choice Question

[Communication] During a project review meeting at an R&D centre, team members used different forms of communication. Jacob called a data scientist and discussed model optimization techniques, while Sneha emailed the team a summary of recent algorithm performance metrics. Meanwhile, Shriman quickly texted his manager to confirm the deadline for an upcoming model deployment. As the discussion unfolded, Rashmi silently nodded in agreement when a colleague proposed a new approach for improving the model's accuracy.

[Communication] Which of the following is an example of non-verbal communication?

Options :

6406533939658. ✖ Jacob calls a data scientist to discuss model optimization.

6406533939659. ✖ Sneha sends an email summarizing algorithm performance.

6406533939660. ✖ Shriman texts his manager to confirm a project deadline.

6406533939661. ✔ Rashmi nods to indicate her agreement.

[Communication Barrier] Riya, a team leader, is reviewing performance reports of her team members. She believes that employees who frequently speak up in meetings are more proactive and high-performing. While evaluating Pradeepan's performance, she focuses only on instances where he actively contributed in meetings, overlooking his detailed project reports and behind-the-scenes contributions. As a result, she rates him higher than another employee, Shriprasad, who is less vocal but has consistently delivered high-quality work.

[Communication Barrier] Which communication barrier is influencing Riya's evaluation of her team members?

1. Selective perception
2. Confirmation bias
3. Information overload

Select the correct answer from the options below:

Options :

6406533939670. ✔ 1 only

6406533939671. ✖ 1 and 2 only

6406533939672. ✖ 1 and 3 only

6406533939673. ✖ 1, 2, and 3

[Investment Strategy] Jayandra and Karan both were software engineers and earned a decent salary.

Jayandra started investing in the Sensex index at the age of 25. Each month, he invested ₹5000, accumulating a total investment of ₹26,80,000. By the time he stopped investing, his portfolio had grown to an impressive ₹20,75,17,690.

On the other hand, Karan began investing at the age of 35 and continued till 01-02-2024 in the same Sensex index. Despite making the same monthly investment as Jayandra, his total investment amounted to ₹20,80,000. However, the return he received was significantly lower at ₹3,16,41,127.

[Investment Strategy] What was the primary reason for Jayandra accumulating significantly higher wealth than Karan?

Options :

6406533939690. ✗ Jayandra invested in different stocks

6406533939691. ✗ Jayandra invested a larger amount each month

6406533939692. ✓ Jayandra started investing earlier and benefited from power of compounding

6406533939693. ✗ Jayandra timed the market better

[Cultural Dimensions] Parag, a senior project manager, recently moved to the UK for a global assignment. In India, he was used to a workplace where decisions were largely driven by senior leaders, and team members typically followed instructions without much debate. However, in the UK, he noticed that junior employees openly questioned their managers' decisions and participated equally in discussions. Parag initially found this surprising, as he was accustomed to a more hierarchical work culture in India. Curious about these differences, he explored Hofstede's cultural dimensions and found that workplace structures and authority dynamics vary significantly across cultures.

[Cultural Dimensions] Which cultural dimension best explains Parag's observation about differences in workplace hierarchy between India and the UK?

Options :

6406533939698. ✔ Power distance

6406533939699. ✖ Individualism

6406533939700. ✖ Uncertainty avoidance

6406533939701. ✖ Motivation towards success
